- Approximate 100-Year Flood Boundary
- Cross Section Line
- Elevation Reference Mark
- River Mile

RM7
 M1.5

NOTES TO USER

This map is for use in administering the National Flood Insurance Program; it does not necessarily identify all areas subject to flooding, particularly from local drainage sources of small size, or all planimetric features outside Special Flood Hazard Areas.

Boundaries of the floodways were computed at cross sections and interpolated between cross sections. The floodways were based on hydraulic considerations with regard to requirements of the Federal Emergency Management Agency.

Floodway widths in some areas may be too narrow to show to scale. Refer to Floodway Data Table where floodway width is shown at 120 inch.

Corporate limits shown are current as of the date of this map. The user should contact appropriate community officials to determine if corporate limits have changed subsequent to the issuance of this map.

For adjoining panels, see separately printed Map Index.

ELEVATION REFERENCE MARKS

| REFERENCE MARK | ELEVATION FEET (NGVD) | DESCRIPTION OF LOCATION |
|----------------|-----------------------|---|
| RM 4 | 779.71 | Chiseled cross at north end of northwest wingwall of Pickerington Road bridge over Walnut Creek. |
| RM 5 | 781.65 | Chiseled square on northeast corner of south abutment of U.S. Route 33 northbound bridge over Walnut Creek. |
| RM 6 | 779.34 | Chiseled square on west end of south abutment of Carroll Northern Road bridge over Walnut Creek. |
| RM 7 | 801.34 | Chiseled square on west end of angle iron used as south abutment of Coakley Road bridge over Walnut Creek. |
| RM 8 | 806.80 | Chiseled square on east end of angle iron piling cap, used as south abutment on Havensport Road bridge over Poplar Creek. |
| RM 9 | 812.37 | Chiseled square on northwest abutment of Havensport Road bridge over Poplar Creek. |
